Debora & Paul

Paul loves heritage homes! As a member of the Heritage Preservation Society in his community he has great appreciation for the fine craftsmanship and beautiful details in old homes, but his wife Debora doesn't want to live in a museum. She wants heritage-style in a modern construction. Trouble is, where Debora sees problems, Paul sees potential. He is ready to update their home to unlock the glorious potential of their heritage charmer. Can Jillian reconfigure and modernise this house so it's a dream for both Paul and Debora or will Todd find them the perfect blend of old and new?
